Office of the County Auditor Auditor's Analysis

Council Bill No. 35-2024

Introduced: June 3, 2024 Auditor: Rebecca Gold

Fiscal Impact:

The fiscal impact of this legislation is approximately \$3,392,781 in expenditures from the County's Agricultural Land Preservation Program Fund (the Fund) over the next 15 years to acquire an agricultural preservation easement on private property within the County. Anticipated financing and payment terms of this acquisition include a 10 percent down payment of \$290,540, fifteen annual principal payments of \$174,324, and semi-annual interest payments of 2.5 percent of the outstanding principal.

We have reviewed the Administration's estimated amortization schedule for this Installment Purchase Agreement (IPA) and believe it accurately depicts the terms of the agreement.

The amount of a potential Agricultural Property Tax Credit is unknown at this time, contingent on if or when the property owner applies for such. If an application is submitted and approved, the parcel under consideration will receive the Agricultural Property Tax Credit, which equals 75 percent of the County Property Tax imposed on the land included in the easement. Based on the 2023 value of the land, as assessed by the Maryland Department of Assessments and Taxation, we estimate that the annual tax credit will be \$1,824 (subject to change as new assessments become available).

This fiscal impact does not consider the potential loss of additional property tax revenue and other foregone fees that the County would receive if the property were to be developed, along with other associated costs and revenues.

We requested confirmation from the Administration that this acquisition was included in the most recent cash flow analysis for the Fund (included as **Attachment A**, current as of April 2023) and that the acquisition will not result in a decrease in the future projected Fund balance. As of June 13, 2024, we await a response from the Administration regarding this inquiry.

Purpose:

Council Bill 35-2024 proposes that the County enter into a multi-year IPA to acquire the development rights of approximately 86.16 acres of agriculture land owned by the Edward E. Day Revocable Living Trust located at 880 Long Corner Road in Mount Airy for a maximum price of \$2,905,400 (or not more than \$33,720 per acre).

Other Comments:

Attachment B shows a comparison of the potential financing options now offered for the Agricultural Land Preservation Program (ALPP), which we estimated based on each set of published financing terms.

Regarding this IPA:

- The County's cost per acre is determined using a Price Formula Worksheet that awards points based on the applicant's parcel meeting certain criteria. We verified this parcel's cost per acre of \$33,720 based on the Price Formula Worksheet (see **Attachment C**).
- The Agricultural Preservation Board (APB) recommended the acquisition of this preservation easement, according to its staff report dated April 22, 2024.
- The Director of the Department of Planning and Zoning provided the IPA's draft
 amortization schedule which included September 1, 2024, as an estimated settlement
 date. Actual settlement will be scheduled after the legislation is passed and any title
 issues have been resolved. The first interest payment may change based on the final
 settlement date.

According to the County's financial system, there is currently approximately \$21.3 million in unobligated funding in the Agricultural Land Preservation Program Capital Project. We estimate that there will be approximately \$18.4 million of funding remaining in Capital Project G0163 after the proposed IPA is approved.

The total actual transfer tax revenue for FY 2023 was approximately \$42.0 million, versus a budgeted amount of \$57.4 million. As of June 11, 2024, the total actual transfer tax revenue for FY 2024 is \$33.2 million, as compared to the budgeted amount of \$38.0 million.
